GLOVE LOCKER™ BREAKS YOUR GLOVE IN GENTLY. THEN PROTECTS IT FROM A BEATING.

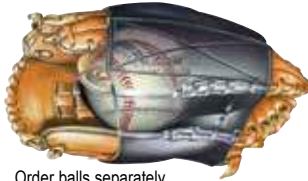

It's like shoestrings, belts and mattresses, only better. Why? Because the Glove Locker™ hugs your glove uniformly with the ball secure in an inner pocket. The result- Pocket Perfection.™

The Glove Locker™ was designed by a ballplayer for ballplayers who care about their equipment. It's easily stretchable and washable neoprene is superlight, yet durable. It has incredible life-springing back into shape time after time. And because it covers more of the outer surface than a belt or shoelace, it protects the outside leather during storage.

The Glove Locker™ is perfect for breaking in new gloves. Just rub a little glove conditioner on your glove and follow the easy wrapping instructions. In just a few days you'll see the results, as your glove begins to take on the natural shape of the ball it's hugging.

Serious ballplayers all over the country, from youth league to the pros, are using the Glove Locker™ to protect their valuable investments. Pocket Perfection™ was never so easy!

The Glove Locker™ maintains your glove's overall shape with continued use and fulfills glove manufacturer recommendations for proper care. Washable neoprene does more than keep your glove's shape. It helps to protect the outside of your glove's leather, too.

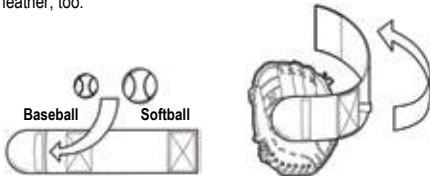

Order balls separately.

GLOVE RE-LACE PACK

Most gloves are made with six separate lacing sections: webbing, fingers, pocket, heel, thumb and small finger. This pack contains enough lace to completely re-lace most gloves. Regular 3/16" lace is standard in most sections; the wider 1/4" lace is excellent for added durability along the top the fingers or to strengthen the webbing. Steel lacing tool w/vinyl coated handle and 3/16" wide rawhide lace.
 Note: Some larger catcher's mitts, first baseman's mitts and certain trapeze style may require an extra pack.

THROW-RITE PITCHER'S TRAINING DEVICE

Learn the proper form and basic bio-mechanics of baseball pitching and throwing. Throw-Rite is designed to show "fluid arm motion" and to give players instant feedback on the correct throwing motion. The two leather cover regulation baseballs are connected by a 2" nylon rope. When the arm moves properly through the arc of the delivery, the top ball travels without touching the thrower. When the player starts to "short arm" the ball, the top ball will flop over to hit the back of the hand. Instant feedback! Can be used for over-hand and side-arm delivery. Great for any player at any level. When you throw and the ball hits you in the hand, it means that you are not using the proper arm arch and that your entire body is not being used properly. ATHLETIC VISION TRAINING

Great training aid for a variety of sports. Wear goggles during non-contact practice. Remove for game play. When using for baseball and softball fielding goggles train fielding mechanics by blocking the lower vision to force the head down and eyes on the ball, while keeping the glove out in front and body squared up to make a play. Pitcher's will gain mental and visual focus with every release. Hitters learn to focus and use optimal field of vision to track a ball from initial release through point of contact without pulling their heads. Athletes will learn to use both eyes (binocular vision) to become more successful hitters. Helps to train basketball players dribbling, shooting and passing mechanics. Trains track and field sprinters to remain focused on the finish line without becoming distracted during competition. Soccer and lacrosse players learn visual awareness and to keep eyes up to anticipate play. Golfers gain optimal visual awareness and mental focus with every swing. Tennis and volleyball players train for visual tracking to increase reaction times for serves and planning next ball placement. Use in football to simulate tunnel vision for quarterbacks, training them to look off targets and identify defensive coverage schemes. Also excellent for receivers, defensive backs and linebackers.

DEVELOP PERFECT PITCHING FORM

XELERATOR FASTPITCH SB PITCHING TRAINER

Pitching training aid for fastpitch softball. Teaches correct muscle memory nearly 20 times faster than conventional pitching only training. Increases pitching speed and accuracy. Wrist snap is automatically developed and stored as muscle memory. The end mounted weight combined with the flexible rope handle automatically snaps the wrist through the pitching motion, resulting in increased speed. Corrects bad habits. Forces the player into the correct pitching & throwing plane that leads to increased speed. Great for general arm warm up prior to practice or game. Beneficial for conditioning of the arm and shoulder. Training can be done without the use of a catcher and can be used indoors for year around practice.

XELFPRD w/Red End Mounted Weight

Develops muscle memory for pitching a softball correctly. Helps pitchers to keep the bottom part of the circle in close to the thigh. Perfect Circle™ provides instant feedback without the need of a coach watching. Elastic band holds a square cotton flap that fits around the upper thigh and extends out a few inches into the pitcher's release zone. When practicing windmill pitches for softball, the arm should touch the flap every time. An arm position too far from the thigh at the bottom can cause many problems, including control problems, lack of speed, undue stress to the shoulder socket and more. Teaches proper placement of the hand in the release zone. Excellent pitching aid for basic mechanics or advanced pitching mechanics such as fast ball, change-up, drop ball, screw ball, rise ball, and curve ball. Fits in your pocket. Includes instructional CD and carrying case. Taiwan

safe ball®

HOLLOW CORE ABSORBS SOME OF THE IMPACT IF A PLAYER GETS HIT.

Designed with a hollow-core, the Safe-T-Ball® absorbs some of the force of impact so players can play without the fear of being hurt from a traditional ball. Builds confidence without the fear of being hit.

Both balls look and feel like a real baseball or softball and play identical to a traditional baseball or softball. Safe-T-Balls® have great safety features so players can have fun and be safe.

Safe-T-Balls® do not prevent all injuries. They can help reduce the sting from impact, and that increases confidence for players who fear getting hurt by a standard baseball or softball.

THE POWER OF RESISTANCE TRAINING IS IN YOUR HANDS!

POWER FINS™ TRAINING AID

Work against air resistance (similar to swinging a bat in a swimming pool). Build swing strength, increase hand/bat speed, develop stronger wrists. Batting donuts have been found to do more harm than good, as they upset your natural swing process and the weight distribution of the bat. Swing mechanics are not altered with Power Fins. Slip the fins over the knob and handle of the bat. One size fits 2 1/4" barrel or larger barrels. Works on baseball and softball, youth league, high school and college bats. Assembly instructions included. This is not a toy. Power Fins is a training aid recommended for serious athletes. Weighs 14 oz. CS 24 pcs 36.37 lbs. UPC# 0 16562 10019 5 Taiwan

FIND YOUR INSIDE PATH TO THE BALL!

Swing trainer and on deck bat weight. Assists players with finding correct swing path while increasing hand speed. Develops quick hands, power transfer, bat positioning, swing path and muscle memory. Filled with steel shot (small pellets) to give instant feedback. Place it on end of bat barrel. When hands and feet are in proper position, the steel shot is moved and located in the base of the chamber. As the swing begins, the shot is moved through the chamber and, at the point of impact, the shot whips through the chambers. Allows batter to feel the power as well as hear the shot as they reach the impact zone. Batting drills included. Endorsed by Texas Rangers Hall of Famer Rusty Greer. Fits all baseball and softball bats.

INSIDER BAT

Muscle memory training aid promotes proper grip, hand placement and swing path before, during and after contact. Teaches proper set up, grip and swing path. Instant feedback. The design allows only the correct way to make contact with ball. Creates proper feel of staying inside the ball with rear elbow tucked in the slot. When the sweet spot is struck flat against ball, proper palm up and palm down position has occurred. Aluminum shaft causes erratic ball flight when casting or sweeping occurs during swing. Shaft angle promotes hands in front of bat head and hands inside the ball. Shaft angle indicates when wrists roll during the swing creating erratic ball flight. Oval handle aligns hands properly. Trigger on handle reminds the hitter where hand should remain during swing or used during one arm drills. Can be used for top hand and bottom hand drills. Aircraft 6061 grade aluminum and stainless steel. Power coat painted shaft and sweet spot with high gloss clear coat. Injection molded polypro copolymer handle with comfortable polyolefin coating. For left handed and right handed hitters. Two Sizes:

HANDS INSIDE TRAINER

Promotes proper muscle memory for attacking the inside part of the ball with proper hand path during the swing. Provides feedback on hitting technique. Bat strikes the "J" before the ball when swinging incorrectly. Fits most standard rubber batting tees. Durable 85 durometer urethane. Solid urethane stem. Semi-rigid thinner "J" flexible so as not to damage bats. Adjustable "J" for different size bats. Will not rot, break or crack. Use with baseballs or softballs. For right or left handed hitters. USA

No Need to remove from batting tee. Simply rotate "J" to convert back to regular tee. For baseballs or softballs!

LET 'ER RIP WITH **WHIP STRIP™**

WHIP STRIP™
Helps softball and baseball batters lock-in bottom hand to create quicker bat speed. Allows batters to drop pinkie, ring or middle finger lower down onto the knob of the bat. By dropping the bottom hand lower you will have less palm and finger grip contact on the knob of the bat which enables a more confident and secure swing. Increases bat grip 30% and increases bat speed 12-15%. Reduces need for pine tar or sticky spray. Helps to compensate for weak hand, wrist or forearm strength. Enhances ability to cut down on the ball. Works great over knob cuffs, tapers or bat cones. Slides easily over batting gloves. For use on index or middle finger. Helps prevent blisters. Legal for game play. Fits ages 6 years and up.

THE AMERICAN ORIGINAL-FOR HITTING AT THE NEXT LEVEL!

MAXIMIZE THE PROPER GRIP TECHNIQUE WITH THE PATENTED BATTING AID USED BY THE TOP PROS

PROHITTER® is a durable, rubber-like resin which, when worn correctly on the thumb of the top hand holding the bat, creates the correct grip technique to increase your bat speed, power and bat control.

It also prevents a batter from getting stung or bone bruises when a batter gets jammed with an inside pitch.

A large percentage of baseball's best pro players are using PROHITTER® to help increase their hitting performance.

C-FLAP®

BATTER'S CHEEK & JAW PROTECTION

For Adult and Youth Batters One size fits all

**USE THE SAME PROTECTION
AS MANY PRO PLAYERS!**

Innovative design of the C-FLAP® guard helps prevent injury to the cheek and jaw, easily mounts to the ear flap of most batting helmets, covering the side of the face exposed to the pitcher, without obstructing vision or air flow. Lexan plastic construction is stronger than most batting helmets.

Attaches to most batter's helmets, even those that use chin straps. Instructions and hardware included. Drill (7/32" drill bit) and flat-head screwdriver required for installation. Helmet sold separately. Assembled in St. Louis, MO

Clamshell packaging offers illustrated mounting instructions specific to the right and left-handed batter. Template included for drilling holes into ear flap.

GAME SIGNS

BASEBALL SIGNAL ENHANCEMENT STICKERS

Catchers can be confident that their pitchers and fielders are able to see each sign accurately. Simply apply the bright colored Game Signs stickers to the fingernails of the catcher's throwing/signaling hand. Each finger will be visually enhanced and signs will be communicated clearly. Durable, easy to use.

**GREAT
THUMB
PROTECTION!**

THUMB DEFENDER

WITH THUMB TECHNOLOGY

Helps to protect players from the repeated force of impact that catching the baseball can put on the thumb portion of the hand. Helps to defend players from hyper extension or jamming or the thumb during every game. The thumb guard is constructed of rigid rubber that surrounds and supports the thumb and does not restrict movement or flexibility. Reinforcing stitching around the four fingers allows the player to cut the fingers off if desired. Padding on the palm and fingers for extra support and comfort. Can be used by any player position. For baseball and softball.

COOL-CATCHER

STAY COOL!

COOL-CATCHER

Meets the challenge of helping aid the catcher. Helping to keep the player cool behind the plate. Allows a cold gel pack to be positioned on the rear cavity of the hockey-style catcher's mask. Easily attaches and releases via side-release buckles. Fits all hockey-style catcher's masks that have the rear flexible cavity pieces. Keep gel packs in freezer overnight and inside a cooler during the game to provide a fresh, cool pack when needed. Comes with one Cool-Catcher and 3 cold gel packs.

Protects the inner forearms

Creates a buffer zone to protect the forearm and wrist from injury.

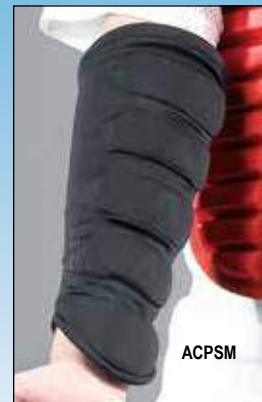

CATCH-TEK

CATCHER'S PROTECTIVE INNER FOREARM SLEEVES

PROVIDES NECESSARY PROTECTION AND IS COMFORTABLE TO WEAR
Catchers wear Catcher's Protective Inner Forearm Sleeves to protect the vulnerable areas of the inner forearms. Comfortable and lightweight Lycra Spandex sleeves have padded pillows that provide a buffer zone from stray balls. Worn for practice or during a game, the sleeves offer an effective layer of protection from bruises and other possible arm injuries. Form-fitting sleeves slide on quickly and easily and allow catchers plenty of freedom of movement. Designed by college baseball coaches to protect a catcher's inner forearms and wrists when blocking the ball. Spin the sleeves around and wear during hitting to protect the lead elbow. Excellent for both baseball and softball.

- Proper bat path through the strike zone allows for various points of contact, which helps the hitter impact the ball more consistently.
- Using the hitting aid correctly, forces the hitter to maintain the barrel in the hitting zone to get the desired outcome.
- With continued use of the LDPT, muscle memory and proper "feel" of keeping the barrel in the hitting zone are attained.

LINE DRIVE PRO TRAINER NEW

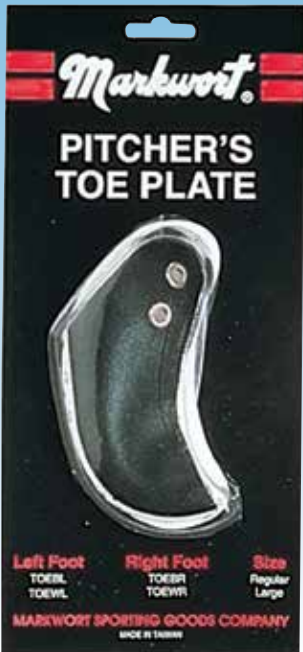

Muscle memory training aid to improve baseball swing and stance mechanics. Promotes balance throughout the swing while maximizing plate coverage. Teaches getting the barrel into the hitting zone and maintaining it there for as long as possible. Physical and visual training methods shorten the learning curve for controlled hitting to all parts of the field. Develops consistent power and contact. Develops barrel control and proper swing path for maximum point of contact with ball. The lightweight plastic cup easily attaches to any bat in seconds. Instant visual feedback helps develop precise ball trajectory. Players can practice solo without a coach. Any skill level. For Baseball and Softball players. UPC# 8 62601 00020 5
